Update on Boston Harbor Monitoring Results

Time (min)	Topic	Presenter
10	Red tide 2008 update	Mike Mickelson, MWRA
10	Timeline for Boston Harbor pollution abatement projects	Andrea Rex, MWRA
20	Spatial and temporal patterns of sewage indicator bacteria in Boston Harbor and its tributary rivers	Kelly Coughlin, MWRA
20	Bayesian modelling for beach management at Boston Harbor beaches	Ann Michelle Morrison, Exponent/Normandeau
15	Changes in productivity in Boston Harbor	Scott Libby, Battelle
60	LUNCH BREAK	
20	Long-term patterns in sediment contaminants in Boston Harbor	William Martin, WHOI
20	Changes in spatial patterns in harbor sediment contaminants	Carlton Hunt, Battelle
15	Changes in nutrient flux and sediment oxygen demand in harbor sediments	Anne Giblin, Woods Hole Marine Biological Lab
15	Rapid assessment measures of sediment habitat quality; changes over time	Bob Diaz, Diaz and Daughters/ENSR
20	Spatial and temporal changes in Boston Harbor's benthic community	Jim Blake, ENSR
