

**Massachusetts Water Resources Authority
June 10, 2008 Update for the
Outfall Monitoring Science Advisory Panel
on
Boston Harbor Monitoring Results**

Topic	Presenter
<u>Red tide 2008 update</u>	Mike Mickelson, MWRA
<u>Timeline for Boston Harbor pollution abatement projects</u>	Andrea Rex, MWRA
<u>Spatial and temporal patterns of sewage indicator bacteria in Boston Harbor and its tributary rivers</u>	Kelly Coughlin, MWRA
<u>Bayesian modelling for beach management at Boston Harbor beaches</u>	Ann Michelle Morrison, Exponent/Normandeau
<u>Changes in productivity in Boston Harbor</u>	Scott Libby, Battelle
<u>Long-term patterns in sediment contaminants in Boston Harbor</u>	William Martin, WHOI
<u>Changes in spatial patterns in harbor sediment contaminants</u>	Carlton Hunt, Battelle
<u>Changes in nutrient flux and sediment oxygen demand in harbor sediments</u>	Anne Giblin, Woods Hole Marine Biological Lab
<u>Rapid assessment measures of sediment habitat quality; changes over time</u>	Bob Diaz, Diaz and Daughters/ENSR
<u>Spatial and temporal changes in Boston Harbor's benthic community</u>	Jim Blake, ENSR
